Classroom Management Techniques

English teaching is common in missions today. However, there has been relatively little discussion on what constitutes effectiveness in English ministries. This book aims to foster such discussion. It first addresses issues of concern in English ministries and then suggests criteria for effectiveness, considerations in teacher preparation, and models for the teaching of English in missions.

The Practice of English Language Teaching

This book is intended to help you, as a teacher of English as a Foreign language (E F L), to teach common verb tenses and patterns more efficiently and clearly. Some of the material in the book may surprise you. To begin with, the explanations and commentary may seem self-evident, or the phonetic realisations may seem unnecessary. If this is so, please try to bear with me. The material in the book is designed to be of help to several groups: the experienced native speaker seeking a possible new approach to add to his armoury, the novice teacher, who speaks English with native speaker intuition, but has not yet fully analysed what it is that she does know, or why she says what she says, and also the non-native E F L teacher abroad, who speaks English excellently, and yet wishes to understand the subtler differences in usage and idiom which the native speaker takes for granted. Teaching Grammar

Teaching English in Africa is a practical guide written for primary and secondary school teachers working all over the continent. This book relates the practice of English language teaching directly to the African context. As well as covering the underlying theory of how children learn languages and how teachers can best facilitate this learning, it also provides practical resources and ideas for activities and techniques that have proved successful in English classrooms in Africa, both at primary and secondary level. It is intended to be a practical guide, so references and citations are kept to a minimum and concepts are presented using examples that are likely to be familiar to most teachers working in Africa. If there is a bias in this book, it is towards the needs of teachers working in low-resource, isolated contexts in Africa, as these teachers are so often neglected by literature on teaching methodology.

Teaching English in Missions

It encourages teachers to appreciate factors that affect grammatical choices, and evaluates the 'rules of thumb' presented to learners in course materials. Consolidation exercises provide an opportunity for teachers to test these rules against real language use and to evaluate classroom and reference materials.
